## SUMMARY

Full Stack Developer passionate about creating dynamic, user-friendly web applications using React.js, PHP, Laravel, MySQL, and modern front-end technologies. Selected among the top 400 candidates for the highly competitive Orange Coding Academy Bootcamp, standing out from 4,000 applicants.

Strong problem-solving abilities, collaborative mindset, and a keen eye for clean, efficient code. Committed to building scalable, high-performance applications and contributing innovative solutions within a forward-thinking development team.

## EXPERIENCES

---

### Full-Stack Web Development Trainee

Orange Coding Academy – Amman, Jordan | 09/2024 – 01/2025

- **Front-End Development:** Built interactive and responsive user interfaces using **HTML5, CSS3, JavaScript, and React.js** to enhance user experience.
- **Back-End Development:** Developed web applications with **PHP and Laravel**, focusing on efficient data handling and system integration.
- **Database Management:** Designed, optimized, and managed databases using **MySQL** for high performance and reliability.
- **Project Implementation:** Applied technical skills to real-world projects, ensuring scalable and maintainable solutions.
- **Team Collaboration:** Worked with cross-functional teams to seamlessly integrate **front-end and back-end** functionalities, improving project efficiency.

## EDUCATION

---

### Full-Stack Development Bootcamp

Orange Coding Academy | 09/2024 – 01/2025

Completed an intensive Full-Stack Web Development course in collaboration with Simplon.co, Princess Sumaya University for Technology (PSUT), and DigiSkills.

### Bachelor's degree in Computer Science

Zarqa Private University, Jordan | 2019 – 2023

Graduation Project: Cryptocurrency Analysis Website

- Developed a comprehensive platform for cryptocurrency analysis with a PHP-based back-end and a dynamic front-end using HTML, CSS, and JavaScript.
- Integrated real-time market data, trend analysis tools, and interactive visualizations to support data-driven decision-making.

## LANGUAGES

---

- Arabic: Native.
- English: Proficient.

## PROJECTS

---

### Software Services Platform ([Code Circle](#))

- Worked as a **freelancer** on a platform for a software company providing **IT services**, including software development, website creation, application development, and consulting.
- Built using **Laravel, React, RESTful API**, and other modern technologies.
- Designed to offer an **intuitive user interface** and **seamless functionality** for clients seeking software solutions.

### Personal Portfolio with Admin Panel ([Mohammed' Portfolio](#))

- Developed a dynamic personal portfolio with a fully functional admin dashboard for content management.
- Utilized React.js for the front-end, Laravel for the back-end, and RESTful API for seamless data interaction.
- Designed an intuitive and responsive UI to showcase projects, skills, and experience.
- Implemented authentication and role-based access for enhanced security.
- Optimized performance and SEO to improve visibility and user experience.

### Cryptocurrency Analysis Website ([Arab Trade Project](#))

- Developed a cryptocurrency analysis platform with a **PHP back-end** and a **HTML, CSS, and JavaScript front-end**.
- Integrated tools for market trend analysis, real-time data tracking, and statistical insights to support informed decision-making.

### Free Legal Consultation Website ([Mustashark](#))

- Built a user-friendly platform offering **free legal consultations** with an integrated booking system for lawyer appointments.
- Developed as part of **Orange Coding Academy** using **HTML, CSS, JavaScript, and Laravel** to ensure a seamless user experience.

### Orange Community Platform ([Orange Community](#))

- Collaborated on a community-driven platform using **React.js, Laravel, RESTful API, and MySQL**.
- Designed to **connect users** through discussions, events, and resources, ensuring efficient data management and smooth front-end and back-end integration.

## SKILLS

---

### Technical Skills

- Frontend: HTML5, CSS3, JavaScript, Bootstrap, React.js.
- Backend: PHP, Laravel.
- Tools: Visual Studio, GitHub, GitBash, Figma
- Database: MySQL.

### Soft Skills

- Strong communication and teamwork skills.
- Effective time management and task prioritization.
- Detail-oriented with strong analytical abilities.
- Creative and innovative approach to software development.
